

## Glove Sizing Chart

To get the most out of Tuff-n-Lite's® superior ergonomically designed gloves there are two basic measurements that will accurately determine your proper sizing. They are Hand Width and Finger Length. Purchase the larger size that's needed. For example, if your hand width was 10 1/2 inches (which corresponds with XL size) and your finger length was 8 7/16 inches (which corresponds with XXL size) you should purchase the XXL size.

### Hand Width

Wrap a measuring tape around your dominant hand just under the knuckles and make a loose fist as in the diagram. Match the results with Hand Width chart.

*This hand measures 9 Inches*

### Hand Width Chart

8-9 Inches	M
9-10 Inches	L
10-11 Inches	XL
11-12 Inches	XXL
12 Plus Inches	XXXL

### Finger Length Chart

7 3/16 Inches	M
7 9/16 Inches	L
8 1/16 Inches	XL
8 7/16 Inches	XXL
8 13/16 Plus Inches	XXXL

*This hand measures 7 1/16 inches*

### Finger Length

Measure your hand from the base of the palm to the tip of your middle finger. Match the results with the Finger Length chart. If you're between sizes use the larger size.

The Tuff-n-Lite® glove is made with comfort in mind. Notice how the crochets of the fingers on your hand aren't lined up. It's not only a superior product, Tuff-n-Lite® is made to fit!

If you don't have a tape measure available use this chart but be aware that it is less accurate.

*Place your right hand with your index finger against the red line.*

9	10	11	12	13
M	L	XL	XXL	XXX
