

Tuff-n-Lite® Measurements for Men's Knit Sweaters

Instructions

Take a shirt that fits you well, lay it down on a flat surface and take your measurements.

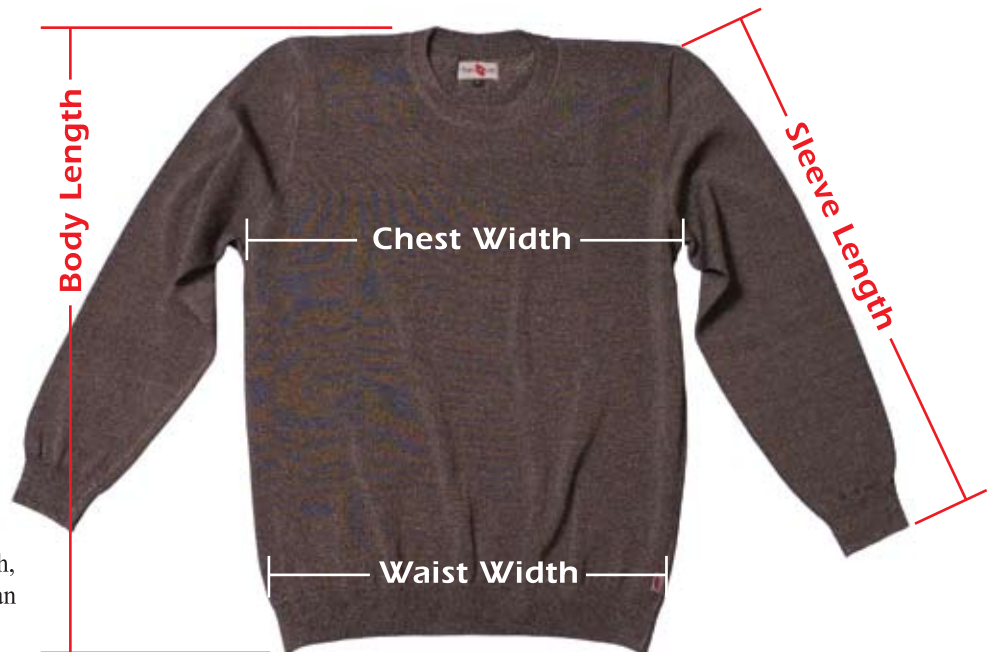

Note: We are generous in cut. If you wear a size large, don't order a larger size thinking they will shrink - they will not.

Chest Width - measure from arm pit to arm pit

Waist Width - measure just above the rib portion of the shirt

Body Length - measure from the bottom of the shirt all the way to the top

Sleeve Length - measure from the point where the sleeve is sewn to the shoulder to the wrist

Please Note: When measuring the body length, our Keel Jackets are made 3 inches longer than usual to protect the groin and vital areas.

Finished Measurement (in inches)										
	XS	S	M	L	XL	2XL	3XL	4XL	5XL	6XL
Chest Width	21"	22"	23"	24"	25"	26"	27"	28"	29"	30"
